SolCentre

Allume's Automated Data Platform

Maximise the value of your SolShare with SolCentre's comprehensive energy monitoring and performance reporting. SolCentre is an energy management solution that's completely automated with quarterly energy performance reports sent directly to your inbox.

Benefits of SolCentre

SolCentre provides you with the assurance that the system is operating and performing appropriately.

Fully automated report sent directly to your inbox.

Offers insights into energy consumption and performance metrics.

Use SolCentre to reduce your system OPEX

Leveraging AI, SolCentre proactively monitors your system's performance, detecting faults and underperformance issues in real-time. Remove the guesswork with maintenance with SolCentre informing you what and when your system requires attention.

Included in your reports:

- Full energy data for every flat
- Bill and CO2 savings for every flat
- System faults and underperformance alerts
